

Nr	To what extent do the following apply?	Ratio	Not at all / 0	To small extent / 1	To some extent / 2	To large extent / 3	Completely / 4
1	The project description is clear and concise, the reasoning is good, and the objectives and outcome of the project are clear.	10%	Project description and reasoning are insufficient, goals and outcome unclear.	Project description and reasoning are lacking. Objectives are poorly defined.	Project description and reasoning are acceptable, and outcome are defined.	Project description and reasoning are quite good. Objectives and outcome are quite clear.	Project description is clear and concise, the reasoning is good, and the objectives and outcome of the project are clear.
2	The project plan is very clear, well thought out, detailed and credible. Milestones are well defined.	10%	The project plan is insufficient. Information is missing.	The project plan is not credible, and it is unlikely that the project will be completed according to plan	The project plan is acceptable but could be clearer and better prepared. Does not address challenges that may arise.	The project plan is clear, well thought out, and challenges that may arise are considered.	The project plan is very clear, well thought out, detailed and credible. Milestones are well defined.
3	The budget is clear, detailed, and credible. Funding is likely to come through.	10%	Budget and/or funding is insufficient. Information is missing.	The cost estimate and/or financing is not credible and unlikely to pass.	The budget and financing plan are acceptable but could be better prepared.	The budget is quite clear, and the funding is credible.	The budget is clear, detailed, and credible. Funding is likely to come through.
4	The project supports very well the objectives of the regional development plan and the fund's emphases.	10%	The project does not meet the regional development plan's goals or the fund's emphases.	It is unclear how the project supports the objectives of the regional development plan and the fund's emphases.	The project supports to some extent the objectives of the regional development plan and the fund's emphases.	The project supports well the objectives of the regional development plan and the fund's emphases.	The project supports very well the objectives of the regional development plan and the fund's emphases.
5	There is a high probability of a positive social impact/value from the project, which the application convincingly explains.	10%	The positive social impact of the project is non-existent or insignificant.	Positive social impact from the project is unlikely.	There is some probability of a positive social impact and benefit from the project that is explained in the application.	Likelihood of positive social impact of the project that the application credibly highlights.	There is a high probability of a positive social impact/value from the project, which the application convincingly explains.
6	The project output is clear, performance indicators are well defined and there is a high probability that the project will achieve its goals.	10%	The project output is unclear, and performance indicators not defined.	The project output is not credible and/or adds little to what already exists in the area. Performance indicators are poorly defined.	Performance indicators are acceptable, and it is possible that the project will produce some results. The basis of the project is quite plausible.	The project output is clear, performance indicators well defined and probability of good results.	The project outcome is clear, milestones are well defined and there is a high probability that the project will achieve its goals.
7a*	The project is very innovative. Development of previously unknown methods, products, or services. Meets a new or previously unsolved need at the national level.	10%	There is no innovation in the project. Product or service known in the local community.	There is very little innovation in the project. A minor addition to what already exists in the local community.	There is some innovation in the project, particularly for the local community.	Significant innovation is inherent in the project. Meets a new or previously unsolved need in the region or in the country.	The project is very innovative. Development of previously unknown methods, products, or services. Meets a new or previously unsolved need at the national level.
7m*	The project is very innovative. A new project/original creation that has a very positive effect on the cultural life of the region.	10%	There is no novelty in the project.	There is very little novelty in the project.	There is some novelty in the project, particularly for the local community.	The project involves some original creation, considerable novelty for the area and/or regional novelty.	The project is very innovative. A new project/original creation that has a very positive effect on the cultural life of the region.
8	The role of partners is well defined and very likely to have a positive impact. The project promotes important relationships that can lead to benefits for all parties.	10%	Cooperation is non-existent in the project.	Cooperation is negligible and poorly defined.	Cooperation is somewhat defined and may have a positive effect.	The role of partners is well defined, and the project is likely to create connections and positive synergies.	The role of partners is well defined and very likely to have a positive impact. The project promotes important relationships that can lead to benefits for all parties.
9	Environmental priorities are well defined and there is a high probability of a positive environmental impact in terms of awareness, attitude, knowledge and/or measurable environmental benefits.	10%	There is no environmental focus is apparent in the project.	Environmental emphases are poorly defined and impacts unclear.	Environmental emphases are defined and the potential for positive effects, particularly if the local environment is considered.	Environmental emphases are well defined and positive environmental effects are likely at the regional level.	Environmental emphases are well defined and there is a high probability of positive environmental effects at the national level.
10a*	Job creation for the long term, a high probability of an increase in the number of jobs, increased professionalism and a variety of jobs comes with the project.	10%	It is unclear how the project is job-creating or contributes to increased professionalism.	Little job creation comes with the project and a limited chance of secondary effects, except for temporary ones.	The project creates some temporary jobs and some potential for secondary impacts.	Long-term job creation and considerable spin-off effects are likely; increased diversity and professionalism.	Job creation for the long term, a high probability of an increase in the number of jobs, increased professionalism and a variety of jobs comes with the project.
10m*	The project has a major impact on the artistic/cultural value of the region.	10%	The project has no impact on the artistic/cultural value of the region.	The project has an unclear impact on the artistic/cultural value of the region.	The project may have some positive effects on the artistic/cultural value of the region, particularly for the local culture.	The project is likely to have a positive impact on the artistic/cultural value of the region.	The project has a major impact on the artistic/cultural value of the region.

a* Applies to business development and innovation projects

m* Applies to cultural projects

If an application receives 0 points for any of the first three points (marked in red), it is automatically considered

Overall evaluation

F	C	B	A
The project is not within the scope of the fund. The application conflicts with the fund's rules and/or does not meet the minimum requirements; see assessment sheet and procedures.	There is little chance that the project will succeed. The plans and project description in the application are unclear and/or unreliable. The applicant's background does not indicate that the project will be carried out satisfactorily.	The project is likely to go ahead according to plans. A good application with few weaknesses. The applicant's background indicates that the project will be carried out satisfactorily.	There is a high probability that the project will succeed. The plans and project description in the application are clear and credible. The applicant's background strongly suggests that the project will go very well.
